

# SLSIG SURVEY RESULTS DECEMBER 2020

See question key listed below the results

Question 1	Question 2	Question 3	Question 4	Question 5	Question 6
3	Learning what other organizations are doing	How to create escape rooms	Not at this time, but if I did, I would be happy to present	No, too much on my plate	Mondays or Thursdays at 1pm
3	I enjoy when there is discussion about how folks are accomplishing their simulations, how to make things more real, what products are working and that they like, what is working and what isn't in terms of supplies and operations.	I enjoy when we have product reps and have discussion about those types of things.	Not right now. Feeling a little overwhelmed. It might be a cool idea to have 2 people from 2 different institutions co-present in order to get to know others. I would like that.	Might be interested and willing.	Tues-Friday Anytime as long as it is done around 3:30. I really miss in person meetings but I know why we have to Zoom.
4	Sharing of practices. Networking.	study group for CHSE/CHSOS, presentation of research or articles.	No	No	Varies, late afternoons
3	I enjoy learning about debriefing, and have enjoyed the speakers	More about actual simulations ran, debriefing, learning content	Did not answer	Did not answer	unsure, so many variables at this time in the hospital setting
4	Collaboration with others. It has given us ideas as well as provided opportunities to have reinforcement or validation from colleagues when needed.	Conducting research on simulation or within simulation settings. Use of effective evaluation methods for simulation scenarios and programs.	Possibly. Teaching techniques incorporating simulation learning. Orienting and assisting faculty and staff in planning and conducting	Yes	Any afternoons between 2 and 4:30 are best. Monday, Tuesday or Wednesday are the best.

	The opportunities that allow for a preview of items from vendors that could be helpful.	Developing training resources for faculty and staff members in simulation, debriefing, etc. Ideas and opportunities for virtual simulation learning.	simulations.		
1	Hearing what other schools in the area doing in simulation, sharing of ideas, sharing our work, collaborating to learn from each other.	I would like to have some discussions focused on networking and group formation for those who are interested to collaborate on multisite simulation research projects.	Not at this time	Not at this time	Most days are flexible except for Mondays. Afternoons work out better.
2	The different resources available for simulation.	More ideas on how to implement simulation experiences during clinical in the hospital.	No	No	Mondays and Fridays. Thursdays don't work at all. Later in the afternoon is best.
2	What other schools are doing in light of the pandemic.	Creating virtual simulations Creating training videos on simulation for new faculty members Evaluation of simulation programs	I have some ideas about using game engine software to produce "hombebrew" virtual simulations, but give me about 6 months to do some more learning and see if this idea will pan out.	Yes	Now that I am retired, any time is OK.
1	Sharing information and networking	Product information, education, research opportunities, best practices,	Did not answer	Did not answer	Did not answer

		innovative approaches			
0	Hearing ideas from others and what others are doing	Unsure	Unsure	Interested-however my schedule has not allowed me to participate as much as I would like to.	Unfortunately my schedule varies by semester, however Tuesdays and Thursdays are often more open for me.
3	Information sharing	None at this time	Not at this time	Not at this time	Monday and Wednesday afternoons
2	Networking	would love to see a small segment of the meeting to highlight the simulation labs/centers (i.e. 10 minutes or less) each meeting	Perhaps in the future. Not sure of a topic at this point.	I would in the future. I feel i am too new to the team to do this.	Monday afternoons or Fridays. Most of the time we are not booking sims on these days as it causes issues with the hospitals taking staff off of the weekend schedule to accommodate them.
1	Hearing how other simulation faculty run sims.	Running sim during a pandemic Ideas for different scenarios New technology	I need to think of a topic	Yes	Wednesday
6	The discussions, presentations, and networking is valuable.	COVID updates and solutions for simulation.	Not at this time	Not at this time	The current meeting time works for me.
2	Sharing of Different ways everyone is doing things .	Simulation Topics	No	No	Tuesdays anytime
0	I wish I could attend more, but Wednesday	budget sources, equipment that you have	i could talk about the budget of our sim center	sure, but I think I have to attend	Not Wednesday afternoons. My schedule

	afternoons happen to be a really bad day for me. (I think all the meetings are on Wednesday afternoons.)	bought that hasn't worked out (basically people talking about their admin mistakes)		some meetings first ha ha. I obviously need to attend meetings and get a better sense of the group.	outside of that is irregular but I would be better able to work around your meeting times.
2 or 3	sharing ideas	anything virtual yet interactive	not sure i am able to at this time	i already am	depends. virtual meetings are so much easier to attend for me. i know they are not as fun or interactive but much easier to attend.
3	The collaboration amongst all nursing schools and how they are supporting and managing simulation during Covid	Exploring labs? Use of manikins? Use of other low to medium fidelity tools ?	At this moment in time I am unsure.	Yes, I would love to be part of the leadership team.	Fridays from 8am-9am or from 12pm-4pm

1. How many SLSIG meetings did you attend in 2020?
2. What have you found to valuable from SLSIG meetings?
3. What suggestions or topic ideas do you have for future SLSIG meetings?
4. Would you be interested in doing a presentation at a SLSIG meeting-if so what presentation ideas do you have?
5. Would you be willing to serve as an Officer (President, Vice-President, Secretary, Information Technology) as a part of the SLSIG Leadership team?
6. What are the best days and times you are available to attend SLSIG meetings?
